TELCON
Brom Smith
Ball
5/17/65, 10:30 a.m.

Ball said he had asked Moyers to get the Viet-Nam paper. This is in response to a request from the President to keep him filled-in on peace aims over here.

Smith said he had not gotten a read-out on the V-N decision. Read has filled him in on as much as he needs, however. He asked if someone would be doing a record of the meeting. Ball replied Jack was taking notes and Bill Bundy has been filled in by the Secretary and Ball. Smith said it would be useful to Mac to get the flavor of the meeting; he will ask Jack.
